Press Release

**Introduction of G-MED North America, Inc. to the
RAPS 2006 Annual Conference & Exhibition in Baltimore, MD
October 15 – 18, 2006**

This year, G-MED NA is participating in the RAPS 2006 (Regulatory Affairs Professionals Society) exhibition. Representatives await you at booth 729 for an introduction to the certification and training services offered in the medical device field. In addition, on October 17th, there will be a poster presentation on *Post Market Clinical Follow-up: expected new MDD requirements*.

G-MED North America, a subsidiary of LNE / G-MED, launched its services in March 2005 near Washington DC. The North American branch was created as a result of the perceived advantage in providing clients with a local contact to directly manage their product and quality management system certifications. Its mission is to coordinate, execute, and monitor certification services under the guidance of its Parisian headquarters. The certification services offered are those for which LNE / G-MED is accredited within the European, Canadian, US, Taiwanese, Australian and New Zealand markets.

The French National Laboratory of Metrology and Testing (LNE), a public establishment with industrial and commercial characteristics comprises 730 employees. LNE is widely recognized for its efforts in research, testing and certification of products and quality management systems. In the medical / health domain, it has become the French national reference body in its field of certification activities.
