**LNE will be present to MEDICA  
in Düsseldorf, Germany,  
November 14 - 17, 2007 – booth # 17C24D**

LNE will be taking part in the MEDICA international trade fair in Düsseldorf, Germany, from 14 to 17 November 2007 and looks forward to meeting you at booth 17C24D.

LNE/G-MED operations manager will provide medical device manufacturers with full information on product certification on worldwide market, including Europe, The United States, Canada, Taiwan, Australia and New Zealand.

They will also display the recent development in Active Implantable Medical Devices, most particularly with EN 45502, the statutory modification on the 2007/47/CE directive and our new certification offer concerning ISO 14001 (certification of Environmental Quality Management).

The LNE / G-MED service offers for better assistance to our clients concern:

- ISO 9001, ISO 13485 (certification of Quality Management Systems), and ISO 15378
- CE marking (complete range of services in the framework of the EU Regulation)
- CMDCAS program (certification under Canadian accreditation for a full recognition)
- Third party inspection body according to the US QSR
- Pre-audits for new customers, in order to optimize the certification process
- Intra-company training on the European regulation and its current evolution, ISO 13485 and ISO 14971.

LNE sales engineers will also be pleased to inform medical establishment representatives and manufactures about the Laboratory's measurement, testing and technical analysis services, particularly in the field of Implantable medical devices, orthopedics implants (hip, spinal, spine, dental), and electro medical equipment (radiology, imaging).
