

European Metrology Programme for Innovation and Research

WORKSHOP

Presentation of ideas in preparation for the 2019 call for the Targeted Programme Environment

23-24 October 2018

Organised by EURAMET Task Group "ENVIRONMENT" and LNE

AGENDA

	October 23 Afternoon – Plenary sessions	Room Plenary
9.00 – 13.30	Registration	
9.00	Copernicus C3S Lot 3 Near Surface Temperature Meeting	C3S Members only
13.30	Opening	Andrea Merlone
13.40	Welcome from LNE Representative	Maguelonne Chambon
14.10	Task Group Environment and interactions with the stakeholders communities	Andrea Merlone
14.40	Metrology to underpin air quality and atmospheric monitoring	Annarita Baldan
15.10	Metrology in support of long-term assessment of essential ocean variables	Paola Fiscaro
15.40	Coffee break	
16.20	Thermal metrology for climate	Carmen Garcia Izquierdo
16.40	Traceable ground-based measurements of remote sensing products of the atmosphere	Julian Groebner
17.00	Closing / discussion	Andrea Merlone
17.20	Task Group Environment meeting	TG ENV Members only
	October 24 Morning – Parallel break out sessions	
9.30 to 13.00	Gas and particle metrology for air quality, emissions monitoring and atmospheric science	Chair: Paul Brewer Room: 115
	Reference-grade measurements of in situ physical observations for climate	Chair: Andrea Merlone Room: Amphi
	Metrology for essential oceanic variables	Chair: Paola Fiscaro Room: 378-382
	How to provide traceable measurements of atmospheric remote sensing products	Chair: Julian Groebner Room: TBD
	Metrology for radionuclides in air, water, surface and soil and for environmental ionizing radiation dosimetry	Chair: Stefan Neumaier Room: TBD
	More breakout sessions TBD	
13.00	Lunch	

Venue : rue Gaston Boissier 75724 Paris Cedex 15
